Yearbook

2004-2005

**Pacific High School is a great place to learn, grow and share life experiences with friends, classmates and caring adults. This year has been a good year filled with fun and formal dances, improving sports programs and exciting leadership activities. There have been, of course, challenging classes and equally challenging teachers who brought about considerable strides in academic growth and preparation for successful careers. We have seen new additions to the staff that have brought new energy and expertise to our technology and science programs. We have seen new recognition programs to motivate students to higher achievement, and we have exhibited academic excellence by scoring high on achievement tests and qualifying for an amazing amount of scholarships for our graduating seniors. I hope this yearbook forever reminds you of the years spent here and the relationships that have developed. May the knowledge you have acquired prepare you for a successful future.**

**Sincerely,**

**Marv Ott, Principal**
